Greg,

I wanted to give you a quick update concerning the Delfasco Project. We are currently working with the Public Works Department of Grand Prairie to determine ownership along the Right-of-Ways. We have also received cost information from Beacon Environmental for the passive soil gas samplers. To purchase the samplers and have them analyzed will cost approximately \$20,000. This cost does not include the labor needed to install or extract the samplers. The vendor indicated that they would need approximately 48 hours to process and ship the order. Please let me know if you would like for us to order the samplers. Thanks.
